November 18, 1988

Mr. Dennis F. Stefani  
Manger, Regulatory Affairs  
Chemical Processors, Inc.  
2203 Airport Way South, Suite 400  
Seattle, Washington 98134

Dear Mr. Stefani:

Our initial review of the Part B application for Chemical Processors Pier 91 facility has determined that it does not contain the land owner's signature as required by WAC 173-303-806. As you are aware, the owner's signature for applications to operate hazardous waste facilities is required.

Ecology cannot accept, and will not review, your recent Part B submittal for the Pier 91 facility until the final status signature requirements are met. Your explanation for the lack of owner signature for the Georgetown facility is acceptable for the time being.

I am requesting that you respond to Cullen Stephenson on this matter by December 1, 1988. Your response should include when the signature will be forthcoming to Ecology. Cullen can be reached at 438-7410.

Sincerely,

Timothy L. Nord  
Supervisor  
Hazardous Waste Permits
